

Technical Data Sheet

Steel Fibre (Glued)

Product Code: **FS-SF-8060-G**

FS-SF-8060-G

Places of Application		Dimension	
• Industrial floors • Roundabouts & roads • Precast concrete • Slab on pile		• Length: 60 mm $\pm$ 7.5% • Diameter: 0.75 mm $\pm$ 7.5% • Aspect ratio (l/d): 80 • Hooked End / Glued	
Properties		Benefits	
• Tensile strength (Rm): 1200 $\pm$ 7.5% MPa • Young's Modulus: 195 + 15% GPa • Quantity of fibres: 4600 Fiber/kg • Minimum Dosage: 12 kg/m³		• Easy to use & high performance • Even dispersing throughout concrete • Saves the contractor time and money • Improves site safety • Superior crack control to conventional methods • Degradable bag means less handling and wastage	
Storage		Packing	
Store in dry conditions protected from rain and moisture. Keep on pallets off the ground.		20kg Bag 25kg Bag	

Note : This product is manufactured under licence of **CONECTO Profiles sp. z.o.o - Poland**
